## PROFILE

Computer Science graduate from East West University with hands-on experience in **AI and Data Science** through an internship at Musemind. Published **IEEE researcher** in interpretable machine learning. Proven track record of building production-grade AI systems and leading large-scale operations for 500+ participants. Skilled in **Python, Machine Learning, Deep Learning, Computer Vision, Power BI** and **SQL**. Passionate about delivering data-driven solutions that drive strategic business outcomes.

## CORE COMPETENCIES

- Machine Learning & AI
- Deep Learning (PyTorch)
- Product Development
- Data Science & Analytics
- Computer Vision
- Stakeholder Management
- Business Strategy
- SQL & Power BI
- Team Leadership

## PROFESSIONAL EXPERIENCE

### AI Intern — Musemind

**Artificial Intelligence & Product Development** *Aug 2025 – Feb 2026*

- Worked closely with the founding team on AI-powered product features across ideation and prototyping and deployment
- Developed and fine-tuned machine learning models for real-world business use cases to improve prediction accuracy
- Collaborated cross-functionally with designers and engineers to integrate AI capabilities into the product suite
- Conducted data analysis and model evaluation then presented findings and recommendations to senior leadership

### Campus Captain — OSTAD (EdTech Platform)

**Business Development & Strategy** *Jan 2024 – May 2024*

- Drove 30% engagement growth by executing go-to-market strategies for technical workshops
- Acted as primary liaison between OSTAD and a 3000+ student community to build brand trust and awareness
- Managed end-to-end operations for campus events including vendor coordination and participant onboarding for 200+ attendees
- Led a team of 10 volunteers while delegating tasks and ensuring KPI achievement across all campaigns

### Senior Associate — East West University Sports Club

**Operations & Stakeholder Management** *2022 – 2023*

- Spearheaded logistics for EWU Cricketers Cup (300+ participants) and EWU 5K Run (500+ participants) with zero budget overruns
- Conducted post-event analysis to identify bottlenecks and reduce operational costs by 15%
- Built and managed relationships with 10+ external vendors and negotiated contracts to maximize value
- Mentored 5 junior associates in project management and stakeholder communication

## KEY PROJECTS

### Healthcare Claims Risk Engine

**Data Analyst** *GitHub*

- Developed an automated fraud detection system analyzing 40,000+ healthcare claims using SQL pipelines and Power BI dashboards
- Identified financial anomalies and projected a 40% reduction in manual audit hours
- **Tools:** SQL, Power BI, Python, Excel (VBA)

### RetiNet AI Suite

**AI Engineer** *GitHub*

- Built a production-grade AI application for diagnosing diabetic retinopathy from retinal images with 92% accuracy
- Utilized Swin Transformers and integrated Explainable AI (Grad-CAM) to visualize disease indicators
- **Tools:** Python, PyTorch, Docker, Streamlit

### Pharma Market Intelligence

**Data Scientist** *Google Scholar*

- Analyzed pharmaceutical market using 10,000+ drug records and built a predictive model with 99.52% accuracy for drug classification
- Published findings at IEEE QPAIN 2025 conference
- **Tools:** Python, Scikit-Learn, Pandas, Matplotlib

### AI Air Quality Advisor

**AI & IoT Engineer** *GitHub*

- Built an AI-powered indoor environmental advisory system using Arduino sensors and real-time data analysis
- System monitors air quality and temperature and humidity then provides intelligent recommendations via Streamlit dashboard
- **Tools:** Python, Arduino, Streamlit, Scikit-Learn

## PUBLICATIONS & ACHIEVEMENTS

- **IEEE QPAIN 2025 Research Paper** – "Interpretable Illness-Category Classification from Drug Attributes Using XGBoost with SHAP Explanations: A Study on the Pharma-Safe Index Dataset" – Presented at the IEEE International Conference on Quantum Photonics, AI, and Networking (QPAIN 2025)
- **National RoboFest 2024 Hackathon** – Participated in the Hackathon segment of Prime Bank Presents EWU National RoboFest 2024
- **IBM Agentic AI (Coursera)** – Completed IBM certification on Agentic AI systems with LangGraph, CrewAI, AutoGen and BeeAI for building multi-agent workflows
- **Complete Data Science Training (Udemy)** – Comprehensive certification covering Mathematics, Statistics, Python, Machine Learning, Deep Learning with TensorFlow, and Data Visualization with Tableau

## EDUCATIONAL QUALIFICATIONS

### B.Sc. in Computer Science and Engineering

East West University, Dhaka, Bangladesh *Graduated: Dec 2025*
**CGPA:** 3.20 / 4.00
**Specialization:** Intelligent Systems & Data Science

### Higher Secondary Certificate (HSC)

Dhaka City College, Science *2020* **— GPA: 5.00 / 5.00**
**Government Scholarship Holder**

### Secondary School Certificate (SSC)

Science *2018* **— GPA: 5.00 / 5.00**

**Government Scholarship Holder**

## TECHNICAL SKILLS

- **AI & Data Science:** Python, Machine Learning, Deep Learning (PyTorch), Computer Vision, Scikit-Learn, Pandas, NumPy
- **Business Analytics:** Power BI, SQL, Excel (Advanced/VBA), Tableau, Data Visualization
- **Development:** Streamlit, Docker, Arduino (IoT), Next.js, HTML/CSS/JavaScript
- **Soft Skills:** Team Leadership, Strategic Planning, Stakeholder Management, Public Speaking
